DRAMA CLUB

Students in the drama club explored various techniques and elements of drama. As an extended program to the drama lessons, students learnt some new skills and tried their hands on the skills of story writing, role plays, monologues and improvisation. Students played different drama games like, "one word story", "body sculptures", "energy circles" and more to enhance their creativity, communication and confidence. Students also utilized different props and resources, like Story Cards and Improv Cards for the same.

STEAM CLUB

Various activities were conducted for the students during this session. Students gathered information through science-related activities that made them inquisitive and inquirer. They created models with minimal resources available to them. Initially, it was challenging for them, however, being a risk-taker and open-minded, they overcame challenges and picked up the projects of their interest. Towards the end of the term, they proudly showcased the models created by them.

ORATORS CLUB

"A good orator is pointed and impassioned." - Marcus Tullius Cicero.

The Orator's Club provided our learners a platform where they enhanced their communication skills through regular meetings and activities. It offered and opened doors of opportunities to them so they could practice public speaking, voice modulation, and gesture control while receiving constructive feedback from peers and facilitators. Our club not only helped to develop communication skills but also improved leadership, problem solving and critical abilities to think. Students learned about different topics and perspectives while engaging in discussions with people. The Orator's Club equipped the students with essential life skills such as public speaking, writing, reading, and leadership.

Learners sharing their perspective with their peers.

Collaboration with peers

GUITAR MUSIC CLUB

Guitar Club provides a platform for aspiring guitarists to foster their skills and improve their playing techniques. Members can learn from each other, share their knowledge, and receive feedbacks, which helps in honing their musical abilities. Performing and executing in front of an audience helps in building confidence and stage presence, which are essential for any musician. Being part of a guitar club opens doors to performance opportunities.

PERCUSSION MUSIC CLUB

Music is a universal language that transcends cultural boundaries and percussion instruments play a vital role in creating its rhythmic foundation. Percussion instruments, characterized by their ability to create distinct sounds when struck, shaken, or scraped, are found in every musical tradition around the world. From the beating of a drum to the tinkling of cymbals, the importance of percussion instruments cannot be overstated.

SYNTHESIZER MUSIC CLUB

The importance of a synthesizer music club lies in its ability to foster creativity, collaboration, and appreciation for electronic music. Synthesizers offer a vast array of sounds and possibilities, allowing musicians to explore unique and experimental sounds. The club provides a space where individuals can come together to create and share their music while also pushing the boundaries of sonic exploration. It encourages skill development and fosters a supportive learning atmosphere.

WESTERN VOCAL CLUB

The Western Vocal Club, or any vocal club for that matter, can hold critical significance for individuals who are interested in singing and vocal performance. Singing is often considered a joyful activity that can provide an emotional release and reduce stress. Joining a vocal club allows individuals to enhance their singing abilities. The club provides a platform for members to practice regularly, receive constructive feedback, and learn new techniques.

BOOK CLUB (HINDI AND ENGLISH)

“

**THE JOURNEY OF A
LIFETIME STARTS
WITH THE TURNING
OF A PAGE.**

Rachel Anders

”

SKILLSCOUTER.COM

Reading is a journey so magical that it takes its reader to a new adventure every time they pick up a book to read. This term students indulged in different genres of stories and delved into penning their own stories with the 'spin a story' activity. Their understanding of the author's purpose, characteristics/attributes of a character and elements of a story deepened with exposure to a variety of texts and books. Students heard each other's stories and gave constructive feedback as readers to the author. The book club emphasized on creating and maintaining a 'book log' to make journaling and reflection a habit with its readers. Reading has engaged their mind, heart and soul so well as to make it an enduring habit and becoming an avid reader.

DESIGN CLUB

Graphic design is the artistic discipline that seamlessly blends aesthetics and functionality, harnessing the power of visual elements, typography, and composition to communicate messages and ideas effectively.

It is the creative process of translating concepts into visually stunning and thought-provoking designs to captivate and inspire. Through the skillful use of colour, form, space, imagery and the graphic design brings ideas to life, shaping and enhancing the way we perceive and interact with the world around us.

- We began with basic tools like adding text, colour and shapes to create self-ID cards. This journey became more interesting with the creative outcomes.
- The students downloaded/edited images, chose professional colors, and created a color palette. With time and progress, they designed flyers, advertisements, and posters using the BeFunky web tool for graphic designing.

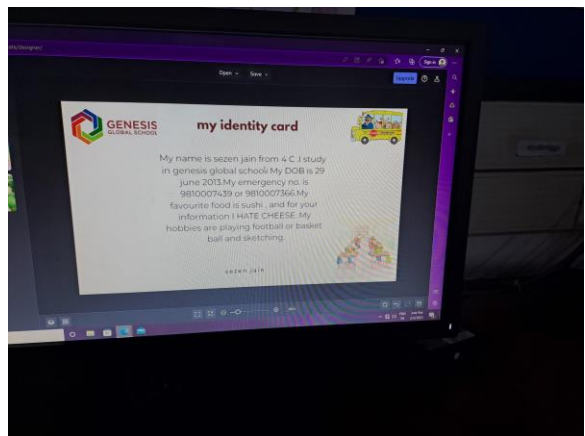

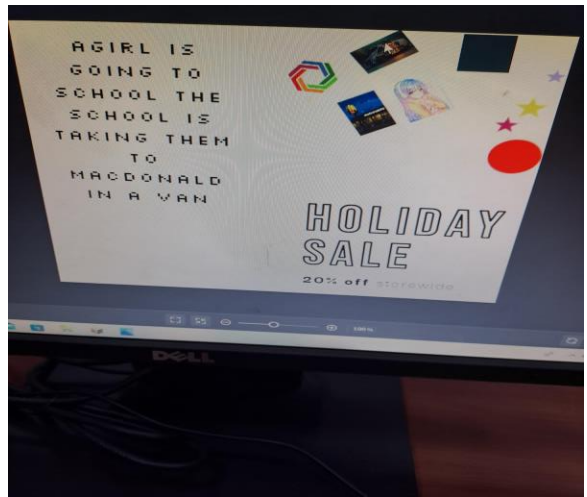

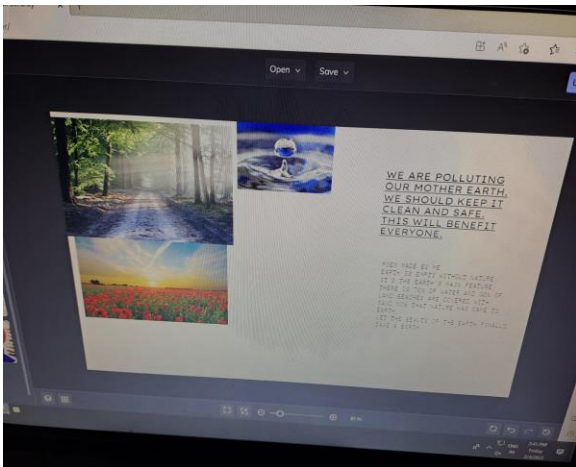

Stealing colors to create customized palette

DESIGN CLUB

BOARD GAMES

The board games club provided a platform for students to learn, compete and enjoy. It challenged them to become risk takers as attributed in the IB learner profile. Every defeat inspired them to become Inquirers. Every victory made them knowledgeable. They learned and understood the rules of various board games like snakes and Ladder, tombola, switcheroo, chess and many more. They even created their own versions of games and donated them to the Playroom.

ART AND CRAFT CLUB

Unleashing Creativity for a Sustainable Future: Mindfully reusing resources

Our club aimed to promote waste reduction by using discarded material to create something useful and meaningful.

Students also understood the concept of recycling. They collected waste material from their classrooms and houses like bangles, plastic wrappers, laces, ice cream sticks, wastepaper, 3-d models, straws, etc. They showed their creative side by making various useful things utilising all the discarded material like stationery organiser, wall hangings, photo frames, bird feeder, etc.

By collaborating and working together, students enhanced their team building, social and creative skills.

ART AND CRAFT CLUB

Mindfully reusing resources

VISUAL ART CLUB

Art club helps the students in developing their creative skills. The students had a great time in learning lots of new skills and techniques and they produced some wonderful artwork too. The art club provides a platform to the students to explore their creativity. It also gives opportunities and freedom to the students to try new things.

Diwali hanging craft

Pista shell art

Optical Illusion spinner

WESTERN DANCE CLUB

Shaking on the tune

The performing arts dance club excelled in dance technique and challenging choreographies. Dancers trained hard and pushed their limits to deliver amazing performances. They learned different styles like jazz and hip-hop, becoming versatile dancers. Their choreographies were both technically impressive and emotionally captivating. The club fostered a strong sense of friendship and community, with members supporting and encouraging each other.

LANGUAGE CLUB

FRENCH

Deep dive in la culture Française

The students were introduced to the French and francophone world . They were shown real life images and firsthand culture and life at France through photos and videos.

They learnt about the French April fool/poisson d'avril culture and made fun fish to celebrate the festival of poisson d'avril.

Students inquired into the questions like why Mona Lisa is famous and what type of food the people and school children have in France and how are the school children different from them.

Last but not the least, we learnt about French alphabets and how similar or different they are from English alphabets. Learning basic salutations through digital games. The classes mostly followed blended learning and group discussion.

LANGUAGE CLUB

SPANISH

This term we commenced the Spanish language with some engaging topics such as "Greetings and Goodbyes", along with some basic phrases to introduce oneself. Students were introduced to "Alphabets with their sounds" and learned "Days of the week" in Spanish. Further, they acquired knowledge of few Spanish- speaking countries and fun facts about Spain through songs, videos, and activities.

LANGUAGE CLUB

GERMAN

This term we began the German language with some engaging topics such as "Greetings", and some essential phraseology for how to give an introduction. Students were introduced to "Alphabets and their sounds" including intonation required for proper pronunciation and learned "Days of the week" in German. Further, they acquired knowledge of a few German-speaking countries and fun facts about Germany. Students also specifically learned about the German political system, educational system for higher studies and industry interface through songs, videos, and activities.

YOGA CLUB

Yoga is important for physical and mental well-being. In this club, students displayed their self-management skills through body control. They performed various asanas like shavasana, gomukhasana and vajrasana to name a few. They did stretching, strengthening poses and meditation . A lot of emphasis was given to the breathing exercises. This enhanced and empowered the students to become more active and dynamic.
